

**Preliminary Program | IUFRO 2018 | Punta del Este**

Wednesday 21st		Thursday 22nd	Friday 23rd	
9:00 - 9:30	<b>Opening Ceremony</b>	<b>Field Trip*</b>	9:00 - 9:45	<b>Plenary Session</b> The sirex woodwasp in South America: research on the best-known pest of pine plantations. Juan Corley. INTA - Argentina
9:30 - 10:15	<b>Plenary Session</b> Pest and Disease management in commercial plantations. Rodrigo Ahumada. Bioforest - Chile		9:45 - 10:45	<b>Epidemiology and population dynamics</b> 38. Assessment of <i>Phytophthora pluvialis</i> infection of radiata pine in a fog-room experiment. 39. Evaluation of the interaction between <i>Phytophthora pluvialis</i> and <i>Phaeocryptopus gaeumannii</i> , two foliar pathogens in Douglas fir, in Oregon and New Zealand plantations. 40. Impact of seasonality and weather on the sporulation and occurrence of <i>Phytophthora pluvialis</i> and <i>P. kernoviae</i> in plantations of <i>Pinus radiata</i> in New Zealand.
10:15 - 10:45	Coffee Break		10:45 - 11:15	Coffee Break
10:45 - 12:05	<b>Status of pest and diseases in plantations</b> 26. Disease Problems in Seedling and Plantation of <i>Dalbergia oliveri</i> Prain. in Myanmar. 41. Forest health status of New Zealand's commercial plantations. 57. Forest health in pine and eucalypt plantations in Australia. 66. Status of pest and diseases in plantations in Uruguay.		11:15 - 12:15	<b>Pest and disease damage and economic impact</b> 24. Predicting productivity losses by <i>Teratosphaeria nubilosa</i> on <i>Eucalyptus globulus</i> in Uruguay. 36. An estimate of the economic impact of <i>Teratosphaeria nubilosa</i> on <i>Eucalyptus globulus</i> plantations in Uruguay. 50. Quantification of damages by <i>Thaumastocoris peregrinus</i> (Hemiptera: Thaumastocoridae) in eucalypt.
12:05 - 12:45	<b>Biosecurity and biological invasions</b> 33. Contribution of Quarantine Laboratory "COSTA LIMA" of EMBRAPA Meio Ambiente to the classical biological control of exotic Eucalyptus pests in Brazil. 58. The risks and costs of exotic pests to Australia's forest industry.		12:15 - 12:45	Lightening talk - Poster View
12:45 - 14:00	Lunch		12:45 - 14:00	Lunch
14:00 - 14:45	<b>Plenary Session</b> Improving forest health through biosecurity and diagnostics. Rebecca Ganley. SCION - New Zealand		14:00 - 14:45	<b>Plenary Session</b> Insect pests of plantation trees: Challenges and responses. Brett Hurley. FABI - South Africa
14:45 - 15:30	Lightening talk - Poster View		14:45 - 15:30	Lightening talk - Poster View
15:30 - 16:00	Coffee Break		15:30 - 16:00	Coffee Break
16:00 - 17:00	<b>Emerging pests and diseases: diagnostics and identification</b> 37. Emerging diseases of the fast growing species in the planted forest Indonesia. 61. Stem malformation as indication of <i>Ceratocystis manginecans</i> infection on <i>Acacia crassiparva</i> pulpwood plantation. 59. Biological control of Australian-origin eucalypt plantation pests: an international collaboration.		16:00 - 17:40	<b>Pest and disease management in commercial plantations</b> 30. From production to formulation: a multidisciplinary approach for pest control in Brazilian Eucalyptus plantations based on <i>Metarhizium anisopliae</i> . 42. Needing to be agile: Adaptive management of the eucalypt leaf beetle Integrated Pest Management over 25 years in Tasmania's publicly-owned plantations. 65. The parasitoid <i>Psyllaephagus blastopsyllae</i> as control agent of <i>Blastopsylla occidentalis</i> in eucalypt plantations in Brazil. 67. Biological control of <i>Thaumastocoris peregrinus</i> in Uruguay. 64. Climate Change, Plantations and pest Intensity-A case study with sandalwood in India.
17:00 - 17:40	<b>Forest health surveillance and monitoring</b> 31. Blue-stain fungi from pine plantations in Patagonia and their control through management. 60. High risk site surveillance in Australia: past, present and future.		17:40	<b>Closing Ceremony</b>
17:40	<b>Round Table</b>			<b>Conference Dinner</b>

\*Field Trip: A one-day field trip to visit commercial plantations in the South-East region of Uruguay will take place on the second day of the conference (Thursday 22nd)\*.
